

Riveron

Complexity and Urgency. **Simplified.**[™]

Maximize NetSuite ROI with Riveron's Accelerators

Take your NetSuite system beyond standard capabilities to solve real business problems with Riveron's purpose-built accelerators. Our ready-to-use solutions tackle your toughest challenges, from streamlining multi-entity operations to connecting critical systems. Realize immediate results and maximize your NetSuite investment with proven solutions built based on hundreds of implementations.

Common Challenges

Overly manual work

Time-consuming manual tasks create bottlenecks and errors

Limited visibility

Standard reporting functionality limits data-driven decision-making

Disconnected systems

Duplicate work due to siloed data and processes

Multi-entity headaches

Complex procurement, billing, and reporting across entities

Our NetSuite Accelerators

Salesforce Connector

Seamlessly integrate Salesforce and NetSuite without middleware. Synchronize customers, products, orders, invoices, and payments in real time with minimal configuration, ensuring consistent data and a complete view of the customer journey, from opportunity to cash collection.

SwiftBot

Automate the data migration process between QuickBooks and NetSuite with our AI-powered assistant. Engineered to support NetSuite implementation and data transformation, SwiftBot ensures your financial data is transferred accurately, efficiently, and securely.

Email Plug-In

Enhance and extend NetSuite approval workflows to manage multi-tier email approvals from both the email and the NetSuite UI. No more switching between systems—every email, including attachments, is automatically connected to the right approver with specialized rules, creating a complete picture for approval directly via email.

Shared Vendor Billing

Simplify cost allocation across subsidiaries with centralized procurement. Efficiently record vendor bills, credits, and card transactions on a single document while specifying each subsidiary's share, eliminating manual journal entries and strengthening audit trails.

Bulk Order Management

Streamline high-volume order processing and management with automated order distribution workflows. This solution eliminates manual data entry bottlenecks, reduces processing time, and ensures accuracy across large transaction volumes—ideal if you manage seasonal spikes or consistent volume orders.

Lasting Value Beyond Implementation

Riveron provides ongoing support to ensure your NetSuite solution continues to evolve with your business. Our certified experts optimize end-to-end processes, working with your stakeholders and end users to deliver solutions that not only meet immediate needs, but also scale for continued business growth.

The Riveron Advantage

Working as an extension of the organization, we help our clients add value and address their most pressing needs.

- **Faster results:**
Our accelerators drastically reduce implementation timelines, delivering quicker ROI
- **Built for your business:**
Prebuilt solutions tailored to your industry and challenges
- **Reduced risk:**
Proven, tested solutions reduce errors and increase NetSuite platform reliability
- **Enhanced adoption:**
Streamlined, intuitive workflows help increase user adoption and satisfaction
- **Multi-entity optimization:**
Simplify multi-entity operations with specialized tools

With over 1,200 professionals across 18 international offices, Riveron delivers tailored solutions for CFOs, private equity firms, and other key stakeholders. Whether navigating complex accounting, executing M&A, addressing financial distress, or driving operational excellence, we provide steady guidance that leads to lasting impact.

In 2023, a new chapter unfolded with Kohlberg & Company's investment, reinforcing Riveron's foundation and commitment to growth. Guided by our tagline, "Complexity and Urgency. Simplified.™", Riveron's multidisciplinary approach is rare among advisors—combining authenticity, collaboration, and technical expertise to bring clarity to chaos and spur momentum for change.
